

# REFLECTOR 3®

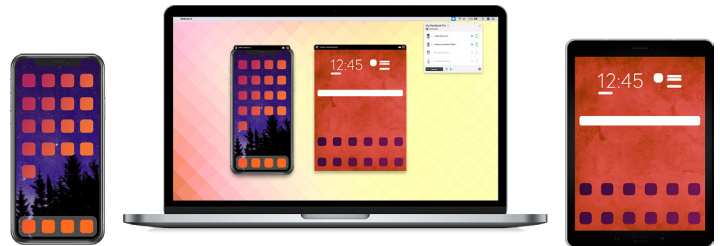

## The All-In-One Screen Mirroring Receiver

This powerful screen mirroring software combines AirPlay, Google Cast and Miracast. Replace cables, adapters and other hardware with a single app. Then discover how easy it is to collaborate and share from your favorite devices.

### Mirror and stream

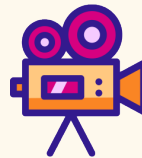

Add Reflector software to Mac, Windows or Android devices. Then receive mirroring and streaming connections from a number of popular devices.

- iPhone, iPad
- Chromebook
- Windows
- Mac
- Android

### Multi-device screen mirroring

Connect any number and combination of devices to Reflector at the same time to create a collaborative content-sharing experience.

### Record screens

Record connected device screens and voiceover audio to create tutorials and presentations with commentary.

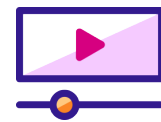

### Device control

Easily emphasize, hide or show devices so you can prioritize the most important content on the screen.

### Security

Prevent unwanted connections with access-limiting options including on-screen codes and connection prompts.

### Stream

Stream media files including audio-only content directly to Reflector-enabled devices.
