

Ditto Features

Everything listed here comes standard with every Ditto subscription.

Screen mirroring features

Compatibility

Screen mirror iOS, iPadOS, macOS, Windows, Chrome OS and Android devices.

App mirroring

Mirror your entire screen or opt for privacy by mirroring only an application. *Available on Mac and Windows.*

Multi-device mirroring

Mirror up to four devices to a single receiver simultaneously.

Multi-display mirroring

Mirror a device to multiple displays simultaneously.

Audio

Send audio with Ditto for room-filling sound.

Reporting metrics

Gain insight into user adoption rate, mirroring time and more stats.

Proprietary mirroring tech

Ditto offers greater performance and stability than AirPlay, Google Cast and other mirroring tech.

Digital signage features

Lists

Create a rotating carousel of digital signage on any display. Quickly assign signage to multiple screens.

Scheduling

Create a signage schedule to share what you want, when you want, where you want.

Emergency notifications

Quickly disseminate emergency notifications to all your displays.

Picture-in-picture

Stream a video feed directly on top of your digital signage.

Templates

Use Ditto templates to create visually appealing digital signage without a designer.

Apple TV/Windows

These popular Ditto receivers make it easy to get started with Ditto digital signage.

Additional Features

Zero-touch deployment

Deploy Ditto software across your organization in minutes without leaving your desk.

Centralized management

Manage every aspect of Ditto from the Account Portal.

MDM Compatibility

Ditto works with device management systems including Jamf Pro, Cisco Meraki and more.

Customization

Customize Ditto to match organizational branding and fit your unique needs.
